about

I am a dedicated and detail-oriented graduate in Operation Theatre and Anesthesia Technology, with a strong foundation in patient monitoring and anesthesia support. My training has equipped me with in-depth knowledge of the safe handling of anesthesia equipment. I am confident in assisting during pre-, intra-, and post-operative phases, ensuring all protocols are followed to maintain patient safety and a sterile environment.

INTERN

ACS Medical college and hospital | 26-04-2025

- Assisted anesthesiologists in preoperative assessments, preparation of anesthesia equipment, and patient monitoring. Gained hands-on experience in setting up and maintaining a sterile environment in the operating theatre. Observed and supported various anesthesia techniques, including general, regional, and local anesthesia. Ensured proper handling, cleaning, and storage of surgical instruments and anesthesia machines. Actively participated in patient positioning, airway management, and post-anesthesia care under supervision.
